

User Guide

Overview

Employees use this application to submit leave requests, view their leave balances, and check the status of their leave requests. It solves the problem of manual leave request processing and helps employees manage their leave more efficiently. With this application, employees can submit leave requests, managers can approve or reject them, and employees can view their leave balances and the status of their requests.

Getting Started

1. Log in to the application using your employee credentials.
2. Navigate to the "Leave Requests" section.
3. Verify success: You should see a list of your leave requests and their statuses.

Core Workflows

Submit Leave Request

This workflow allows employees to submit a leave request.

Steps:

1. Navigate to the "Leave Requests" section by clicking on the "Leave Requests" tab.
2. Click the "Submit Leave Request" button to open the leave request form.
3. Enter the required fields with values like:

- **employeeId**: Your employee ID
- **leaveType**: Type of leave (e.g., SICK, VACATION)
- **startDate**: Start date of the leave
- **endDate**: End date of the leave

4. Click the "Submit" button to submit the leave request.

5. **Expected outcome**: You should see a success message and the leave request status should be "PENDING".

Common mistakes:

- **Invalid employee ID**: Ensure you enter a valid employee ID.
- **Invalid leave type**: Ensure you select a valid leave type from the predefined options.

Approve Leave Request

This workflow allows managers to approve a leave request.

Steps:

1. Navigate to the "Leave Requests" section by clicking on the "Leave Requests" tab.
2. Find the leave request you want to approve.
3. Click the "Approve" button next to the leave request.
4. **Expected outcome**: The leave request status should change to "APPROVED".

Tips:

- Use the search and filter options to quickly find the leave request you want to approve.

Reject Leave Request

This workflow allows managers to reject a leave request.

Steps:

1. Navigate to the "Leave Requests" section by clicking on the "Leave Requests" tab.
2. Find the leave request you want to reject.
3. Click the "Reject" button next to the leave request.
4. **Expected outcome**: The leave request status should change to "REJECTED".

Tips:

- Use the search and filter options to quickly find the leave request you want to reject.

Data Management

Creating Records

To create a new leave request, navigate to the "Leave Requests" section, click the "Submit Leave Request" button, and fill in the required fields. The required fields are `employeeId`, `leaveType`, `startDate`, and `endDate`. Ensure the `startDate` is not in the past and the `endDate` is after the `startDate`.

Editing Records

Leave requests cannot be edited directly. If a leave request needs to be modified, it must be canceled and a new one submitted with the correct details.

Deleting Records

Leave requests can be canceled by the employee or manager. Canceling a leave request changes its status to "CANCELED". There are no cascading effects or recovery options for canceled leave requests.

Filtering and Search

Use the search bar and filters in the "Leave Requests" section to find specific leave requests. You can filter by employee ID, leave type, status, and date range.

Reports and Exports

Currently, no reports or exports are available. Future versions may include reports on leave usage and approvals.
